

Instructions for Submission of S-35C Test Files

- No later than **October 8, 2007**, each COHS plan is to submit a test file using the new S-35C file format.
- COHS plans are required to continue submitting the S-35B files until CDHS has notified the plan of approval of their S-35C file.
- The test file is to be submitted along with the current month's S-35B file to allow for parallel processing/testing.
- All test files should be clearly identified (e.g., "S-35C Test File") and forwarded to CDHS pursuant to current file submission processes.
